

## MAY VICTORIAN BRANCH MEETING

Come and see the research of tomorrow.

### Showcasing Early Career Researcher Talent

Three recent Australian Postdoctoral Fellows will present their research and be available for questions.

6.30pm Thursday 22 May, 2008

Hercus Theatre, David Caro (Physics) Building

University of Melbourne

**Dr Chris Ticknor**

***Understanding Collisions of Cold Polar Molecules***

Centre for Atom Optics & Ultrafast Spectroscopy

Swinburne University of Technology

**Dr Nicoletta Dragomir**

***Quantitative polarisation phase microscopy: A new tool for advances in structural analysis and biophotonics***

Optics Group

University of Melbourne

**Dr Angus Johnston**

***Engineering and Assembly of Bioinspired Nanostructured Materials***

Department of Chemical and Biomolecular Engineering

University of Melbourne
